

ACM 100

Studio-condenser microphone

The ACM 100 is an elegant, sophisticated studio-condenser microphone with an interchangeable capsule for universal capabilities, for example: speech, song, music and recordings. The condenser quality is extremely noticeable when the speaker uses a variable distance to the microphone where the result is not to be outperformed and it transfers a precise sound intensity with a consistent pitch. A special feature is the strong elimination of ambient noise and the high acoustic feedback security. (according to each capsule character).

Phantom powering	24-48 Volt
Frequency response	30-20,000 Hz
Directivity pattern	cardioid (standard)
Deviation of nominal curve	± 0.5 dB
Sensitivity	18 mV/pa
Electrical impedance	200 Ohm
Rear damping	28 dB
Connection	XLR
Surface	nickel plated or black anodized
Length	140 mm
Weight	130 g
Special colours	NEXTEL grey/white
Brand	AVE
