

ACM 17/250MT

Premium quality condenser microphone with microphone stand MT/120

The ACM 17/250 is a premium quality gooseneck condenser microphone with a cardioid directivity pattern. It offers clear, rich in detail and assertive speech play back and it has high feedback security. It transfers high sound intensity without distortions and ambient noise is strongly minimized. Because of its miniature capsule it appears elegant and unobtrusive. The microphone is available in different lengths.
