

ACM 17/350 XLR SL

Condenser microphone with switch and LED power indicator

ACM 17/350 XLR SL is a premium quality gooseneck condenser microphone with cardioid directivity pattern. It offers a clear and detailed reproduction of speech and a high feedback prevention. High volumes are transmitted without distortions and ambient noises are strongly reduced. Due its miniature capsule it appears elegant and unobtrusive. The microphone is equipped with a switch and a LED power indicator.

Phantom powering	24 - 48 Volt
Frequency response	60 - 18,000 Hz
Directivity pattern	cardioid
Deviation of nominal curve	± 1 dB
Sensitivity	15 mV/pa
Electrical impedance	200 Ohm
Rear damping	20 dB
Connection	XLR or 3/8" with 3 m cable
Surface	nickel plated or black anodized
Special colours	NEXTEL grey/white
Brand	AVE
